

How to Post a Book for Sale

Once you have logged into your MyBeeble account, you are taken to the landing page where you select if you are Searching for a book or Posting a book. Select the button on the right (Post you Book). This takes you to step 1 of the 2-step process.

While on the Post your Book page, start by finding your exact book. For the most accurate way of doing so, having the ISBN is important, of course you can always look for it by Title, Author or Keyword. The simplest way is to use your built-in camera to scan the bar code.

Once your book is found, select anywhere in the area of the result that is generated to move forward.

Now that we are on the second step of the posting process, there are several fields of information that you need to provide in order to complete this process.

Starting with the first field (Zip Code), if you have Location Settings to allow on the MyBeeble App, this will automatically fill in the Zip Code based on your present location.

To the right is the Listing Price field, here is where you want to enter in the amount you would like to receive for your book.

Below that you will list the condition of the book.

Followed by Type, options being: Hardcover, Paperback or other, just in case you have some uncommon form of material such as software or a notebook.

Next is the comments section, reserved for comments such as "I have the study guide to go along with this book."

Continuing on to the Contact Me By section, where you determine how you would like to be contacted. If you would like to be reached by email, you will activate the field for it by sliding over the button and then entering in your email address. That goes the same for texting and calling, note that if you allow either of these option, other users may still contact you by the other option because your are providing a phone number.

Finally, if you do not wish to provide any of this information to other users, you may disallow the traditional forms of contact and only use the internal MyBeeble messaging system.

Once all field are complete press Post Book.

You will then see an important message from MyBeeble that let's you know that MyBeeble is adjusting your price to account for the various fees and costs to keep this App running.

Press ok and congratulations, you have now posted an ad to sell your book.
