

How to use the Wish List feature

Let us set the stage by starting on the Search Results page. You have just conducted a search for a specific book and before you are the results of that search.

If at this time you see that there are no results for this specific book in your area, what do you do?

You can purchase a book from another user and have it shipped to you. You can purchase the book from an online bookstore, and again have it shipped to you. Or you can add this book to your Wish List and when another user posts this book for sale, you shall be notified.

To add this book to your Wish List, simply press the icon button that looks like a list with a plus sign on it.

You will see the buttons icon change to a list. This means that within the Menu page found in the Wish List section you will see your desired book added.

You will now received alerts and notifications the very moment someone has posted the book you are looking for according to your search criteria.
